## Safe to use

JB develops and manufactures attractions that can safely be used by all players. All water games we offer are certified in accordance with the NEN-EN 15649:2009 safety and quality standards. That is why we provide an approved inspection certificate, a log book and a clear manual for every water attraction. In addition, all products come with a Bravo air pressure gauge to ensure you know the right air pressure is entered. The anchor points have to be fastened with appropriate anchoring materials to ensure the Crocodile play island stays in place and to prevent it from getting too close to other objects. We have thought of everything, which means we supply everything you need for a fantastic experience.

## High frequency welded JB sets very high demands for its products.

In order to guarantee the quality we use selected high frequency welded PVC material of 900 gr/m<sup>2</sup>. The material we use is strong and colourfast to make our products durable as well as easy to keep clean. The Crocodile play island comes with a 1-year warranty.
